

PHASE 2 DOCUMENTATION

Step 1: Account creation and login

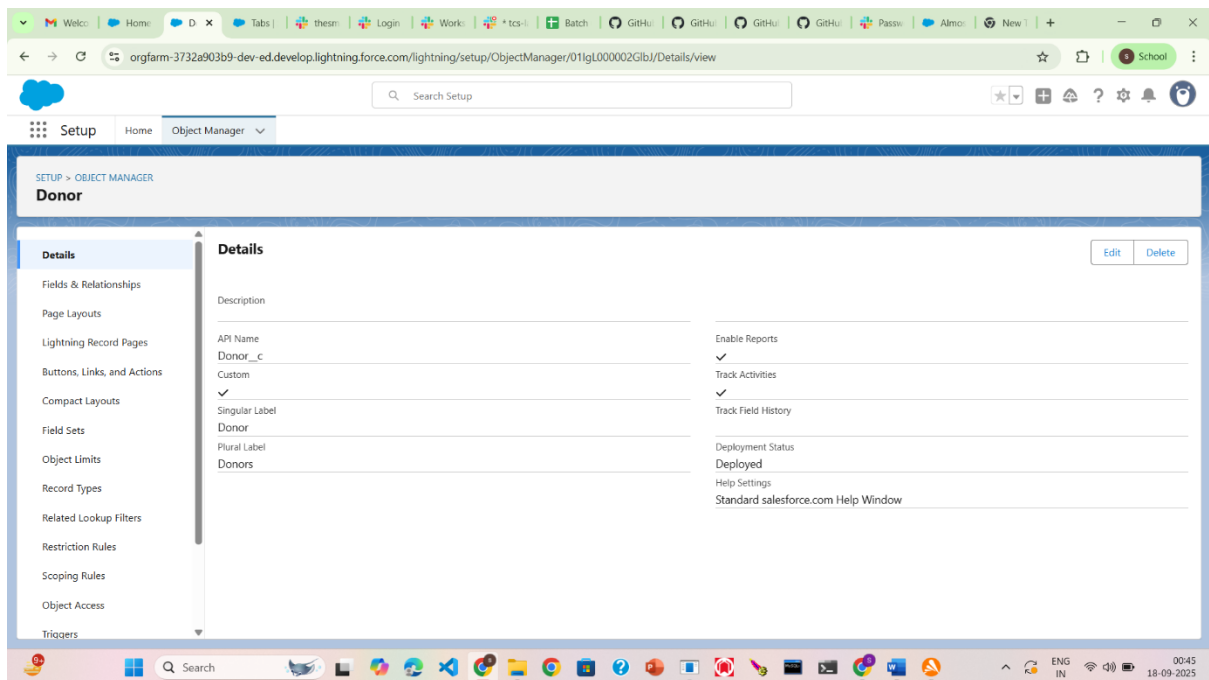

Step 2: App creation

- App Name: Donation Tracking System for NGO's

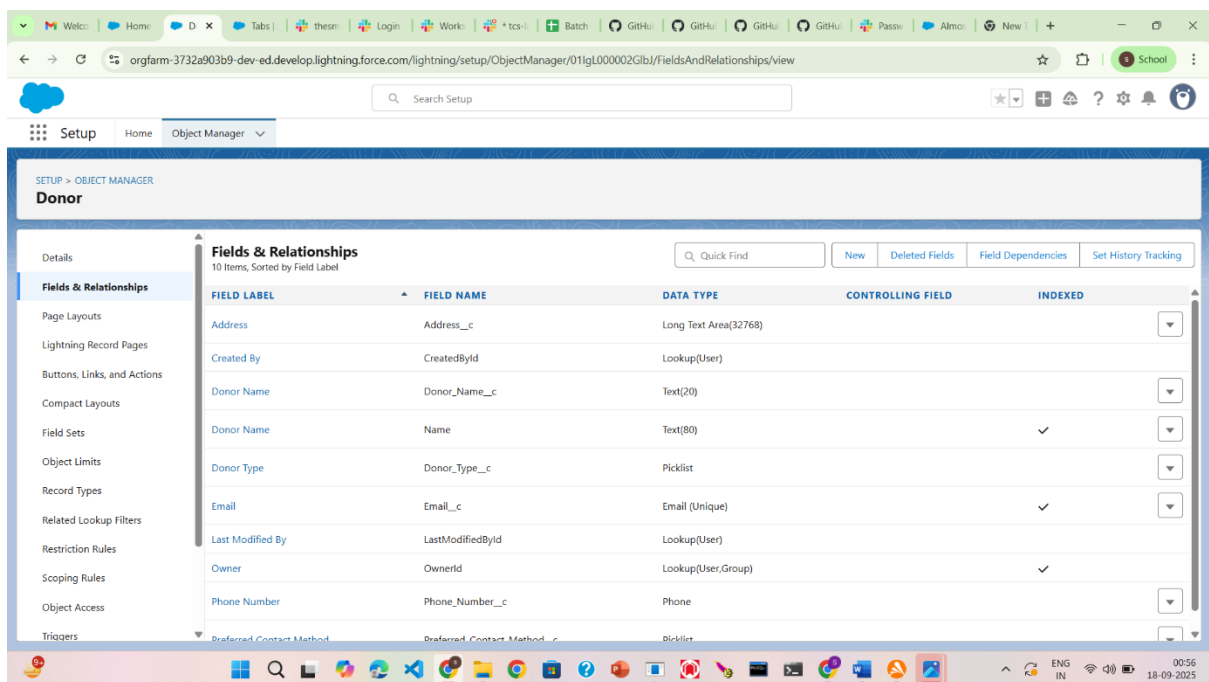

Step 3: Custom Object creation

- Created a custom object Donor_c

Step 4: Custom Field creation

- Created multiple fields and relations under Donor_c relevant to the project.

Step 5: Custom Tab creation

- Created a custom object tab for Donor_c

The screenshot shows the Salesforce Setup interface for a custom object tab. The left sidebar contains a search bar and a navigation menu with 'User Interface' expanded, showing 'Rename Tabs and Labels' and 'Tabs'. The main content area is titled 'Custom Tabs' and includes a description: 'You can create new custom tabs to extend Salesforce functionality or to build new application functionality. Custom Object tabs look and behave like the standard tabs provided with Salesforce. Web tabs allow you to embed external web applications and content within the Salesforce window. Visualforce tabs allow you to embed Visualforce pages. Lightning Component tabs allow you to add Lightning components to the navigation menu in Lightning Experience and the mobile app. Lightning Page tabs allow you to add Lightning Pages to Lightning Experience and the mobile app.'

The 'Custom Object Tabs' section contains a table with the following data:

Action	Label	Tab Style	Description
Edit Del	Campaigns	Presentor	
Edit Del	Donations	Credit card	
Edit Del	Donors	People	

The 'Web Tabs', 'Visualforce Tabs', and 'Lightning Component Tabs' sections each show a 'New' button and a 'What Is This?' link, with a message stating 'No [type] Tabs have been defined'.

The bottom of the image shows the Windows taskbar with various application icons and the system clock displaying 00:45 on 18-09-2025.
